

# BRIDGE

## Pound-O-Matic

The Bridge Machine Pound-O-Matic is designed to eliminate the labor-intensive practice of manual outlet flattening. The Pound-O-Matic provides uniform product thickness, increases plate coverage of outlets and insures uniform cooking times.

One operator can press over 500pcs. per hour safely, efficiently with reduced labor.

The self-contained hydraulic unit presses outlets to meet the requirements of the most demanding chef.

Call Bridge Machine Company today to set up a demonstration!
